

# FIM MOTOTOUR OF NATIONS 2016

## Portugal

### Information to all participants

Route to GPS - File GPX and KML (for Google Earth)

The file contains numbered waypoints beginning with:

- 0 (zero) for the 8th / Set
- 1 (one) for the 9th / Set
- 2 (two) for the 10th / Set

The file contains three paths (not routes)

- **LEG1.x** - Path 1 day - **x** is the number of the group (1, 2, 3 or 4), as the paths are different depending on the group, due to logistics issues
- **LEG2.0** - Path of the 2nd day equal for everybody
- **LEG2.x** - 2nd part of the path of the 2nd day - **x** is the number of the group (1, 2, 3 or 4), as the paths are different depending on the group, due to logistics issues

Take care in converting paths to routes, because if the maps are not updated can take different paths in certain places.

The groups were divided by nationality so as to be of equivalent sizes

Group1 - Belgium, Denmark and the UK

Group2 - France

Group3 - Canada, Croatia, Ireland, Netherlands, Switzerland and the Czech Republic

Group 4 - Greece, Italy, Spain and Portugal

Please Download only the files from your group to avoid confusion
